APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the
source. It is understood that the amount of water herein granted is
only a temporary allowance and that the final water right obtained
under this permit will be dependent upon the amount of water actually
placed to beneficial use. It is also understood that this right must
allow for a reasonable lowering of the static water level at permittee's
well due to other groundwater development in the area. A measuring
device must be installed and measurements of water use kept. The well
shall be equipped with a 2-inch opening for measuring depth to water.
If the well is flowing, a valve must be installed and maintained to
prevent waste. The State retains the right to regulate the use of the
water granted herein at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed 9.344 million gallons annually

Actual construction work shall begin on or before November 20, 1974

Proof of commencement of work shall be filed before December 20, 1974

Work must be prosecuted with reasonable diligence and be completed on or before November 20, 1974

Proof of completion of work shall be filed before December 20, 1974

Application of water to beneficial use shall be made on or before November 20, 1977
